Hello there

OUR STORY

We're **Big Buzz Productions** – a creative agency with 18+ years' experience helping businesses, organisations and charities tell their stories in ways that inspire, inform and engage.

Since 2007, we've produced hundreds of films across the UK, from heartfelt interviews and powerful promotional videos to product explainers and testimonials.

Alongside our core film work, we also specialise in **aerial filming** and creating brilliant **3D virtual tours**.

And just in case that wasn't enough we also run the **Business Film School** – our training arm that helps individuals and teams unlock the power of their mobile phones to create professional, on-brand video content in-house for their business, organisation or agency.

BRING YOUR STORY TO LIFE

We create high-quality videos that help businesses tell their stories with clarity and impact. From planning and scripting to filming, sound, lighting and editing, we handle every part of the process with care and creativity.

Whether it's an interview, a promotional film, a case study or social content, we make filming enjoyable and ensure the final edit looks polished, professional and perfectly on brand.
